Also in attendance:

15 members of the public were present

13/86. Declaration of Members Interest on Agenda items:

Councillor Bull declared an interest in agenda item 13/97.1 and will not take part in any discussion on this matter.

13/87. Open Session for members of the Parish to address the Parish Council:

Following on from the Annual Parish Meeting a parishioner asked if it would be possible to get a broadband connection in the Parish Office with a Wi-Fi point in the hall for users. Councillor Moore reported that a broadband meeting had been held the previous week and a point will be put in but cannot say when this would be at present. Councillor Moore will contact County Broadband regarding a community broadband access point.

Paul Thompson from the Allotments committee reported that the allotments are now full and stated that it is the Parish Councils responsibility to provide allotments and could they increase the number of plots. Councillor Moore will have a look at the allotment site with view to possibly clearing further space. Discussions followed as to where the additional plots could go. It was suggested that the Charity Trustees are approached to take some of the charity land for allotments and reduce the amount of rent charged. Paul Thompson will put a proposal forward to the Parish Council.

A parishioner asked if a rumour which has been heard is correct – that a local farmer is burying asbestos on their land. Councillor Moore confirmed that this has not been heard by the Parish Council and if action is to be taken further information would need to be provided.

It was questioned whether the Ash tree which was removed along The Causeway had a preservation order on it – Councillor Condie reported that the Ash tree did have a preservation order on it but Braintree District Council

granted permission for its removal. However the consent had several conditions on it, one being a proposal for a replacement tree for that to be felled, T5, including size, species and location, agreed in writing within 6 months and planted within 9 months of felling. Kaaren Berry to write to land owner regarding the replacement tree.

A parishioner stated that there were a lot of views expressed at the village consultation meeting about the village envelope extension and then asked what the Parish Councils view was. Councillor Moore stated that the Parish Council will discuss the application at the appropriate point on the agenda and it will be voted on then. It was mentioned that the village plan stated that 48% are for further housing and 51% against and there is a low interest in creating new housing developments.

Councillor Moore stated that the village plan is about the future of the village and all decisions which are made are of a balanced view to maintain the village. Councillor Moore stated that his personal view is that there is a requirement for a small amount of housing and as a parish council we have the role and duty to ensure we have some retirement and lower cost housing but Councillor Moore did not state whether or not he supported the applications. Councillor Collard added that it is a duty of the Parish Council to reflect the views of the village.

Another parishioner stated that the proposed sites seem to be disproportionately large and if the Ash tree was replanted that this would prevent access to one of the plots.

It was also mentioned that the parish council have been asked to consider the extension of the village envelope and that was what the meeting last Tuesday was for – to get the views of the village.

13/88. Minutes of the last meeting:

The minutes of the meeting held on 4th April 2013 were approved and signed by the chair as being an accurate record of the meeting.

These were supplied and it was agreed to ask Essex County Council to increase their cutting to include the Gainsford End playing field. The proposal is in line with that presented to the Parish Council in April. Councillor Bull stated that monies have been granted by the shop towards the project and this has been banked in a separate account. Councillor Collard mentioned if all costs go through the parish council then the VAT would be reclaimable. Councillor Bull will speak to the LARG committee regarding this.

2 quotes have been received - £3570 & £5718, the third person to quote has withdrawn and Andrew will seek a third quotation. Plans need to be drawn up and benefits to be stated. Discussion on whether a slate roof for the 'shelter' would be better but this was rejected on safety grounds.

All present agreed to progress the project.

13/97. Planning:

13/97.1 Site Allocation- additional sites submitted in Toppesfield:
Decision required for application TOP1X – Land west of The Causeway, Toppesfield and TOP2X Land East of The Causeway, Toppesfield

A letter requesting an extension has been received from the developers – following discussions it was agreed by all that no further extension is requested from Braintree District Council.

Councillor Moore reiterated that this is a difficult decision to make, however the information is quite clear and we are here to protect the village's future.

Discussions followed and it was pointed out that there are errors in the original submission by the developers – the current use of land is agricultural and not housing, and that there was no prior conversations with the Parish Council. Councillor Collard suggested that the Parish Council needs its own strategic plan. The process of the late application from the landowners was questioned, it was clear that this is not what the parishioners want.

It was agreed by all Councillors not to support the extension of the village envelope to take into account the applications known as TOP1X and TOP2X.

Councillor Moore and Kaaren Berry to formulate a response to Braintree District Council.

It was also suggested that the Parish Council ask the EALC what other councils do with planning consultants – do they have one. Kaaren to speak to Emma Goodings from Braintree District Council and ask their advice.
